

SAMARA SILVIA SABINO

SOFTWARE ENGINEER | REACT.JS | JAVASCRIPT | MICROFRONTENDS | UX/UI

+55 (81) 99466-8775 • Recife, PE, Brazil • samarasilvia.dev@gmail.com • [linkedin](#) [github](#)

Full Stack Software Engineer focused on React.js, Node.js, and the AWS ecosystem. Hands-on experience building scalable architectures, modular interfaces (Micro-frontends), and CI/CD pipelines. Currently pursuing a Master's in Software Engineering with an emphasis on architecture. Passionate about developing robust, high-performance solutions that optimize professional workflows and business processes.

EDUCATION

M.Sc. in Computer Science

Feb 2025 - Present

Universidade Federal de Pernambuco, CIN • Recife/PE, Brazil

- Full-time availability

Technologist Degree in Internet Systems

Nov 2021 – Dec 2023

Universidade Católica de Pernambuco • Recife/PE, Brazil

Technical High School in Business Administration

Nov 2017 – Dec 2020

Escola Técnica Estadual Advogado José David Gil Rodrigues • Recife/PE, Brazil

PROFESSIONAL EXPERIENCE

Frontend Software Engineer & UX/UI Designer FREELANCE

Jan 2026 - Present

Dental Office Management SaaS (Project) • Recife, Home Office

- Developing a B2B SaaS solution aimed at optimizing administrative workflows for dental clinics.
- Designing a modular architecture to handle patient scheduling, medical records, and financial dashboards.
- Stack: Next.js, Node.js, MongoDB and Tailwind CSS.
- Focus: Implementing secure data handling protocols and intuitive UX to reduce daily operational friction for healthcare professionals.
- Managing the complete product lifecycle from requirements gathering and UI prototyping to architectural definition and database modeling.

Frontend Software Engineer & UX/UI Designer FREELANCE

Feb 2025 - Aug 2025

CloudBasics Academy • Recife, Home Office

- Technical Leadership & Architecture: Spearheaded the development of the company's e-learning platform, defining the frontend architecture and implementing dynamic interfaces using React.js.
- Performance & Integration: Managed RESTful API integrations and optimized application performance, focusing on load times, responsiveness, and Core Web Vitals.
- Design System: Built and maintained a Design System with reusable components, ensuring visual consistency and code maintainability across the application.
- UI/UX Design: Led the product's visual identity creation (Branding, Logo, Typography) and designed high-fidelity, user-centered interfaces using Figma.
- Product Strategy: Collaborated with backend teams to define system requirements and translated business needs into robust technical solutions.

Full Stack Software Engineer FREELANCE

Sep 2023 - Dec 2023

(Project) Mil Folhas (Projeto de TCC - Unicap) • Recife, Hybrid

- **Project Leadership & Development:** Led the development of a Customer Service Kiosk (Totem), personally delivering 60% of the codebase using React.js, Node.js, and ElephantSQL within a microservices architecture.
- **End-to-End Delivery:** Managed the full project lifecycle, from requirements gathering and technical documentation to feature implementation and team coordination.
- **UI/UX & Prototyping:** Designed high-fidelity prototypes in Figma and developed user-centric interfaces, applying Design Thinking principles to ensure usability.
- **Agile Management:** Facilitated collaborative workshops and conducted stakeholder interviews using Agile methodologies to align technical solutions with business needs.
- **Backend Integration:** Built and integrated the client-side interface with Node.js microservices, ensuring seamless data flow and system modularity.

Product Designer & Demoday Winner TECHNICAL RESIDENCY

Dec 2021 - Mar 2022

(Project) Puberflix – Technical Residency- Unicap • Recife, Hybrid

- **Award-Winning Achievement:** Secured 1st Place at Demoday, recognized for the solution's technical viability and significant social impact regarding SDGs (Sustainable Development Goals) in Health and Sexual Education.
- **Product Development:** Conceptualized and developed high-fidelity prototypes for "Puberflix," an educational application focused on youth health.
- **Discovery & Strategy:** Led the entire Product Discovery process using Design Thinking and Lean Inception methodologies to validate requirements and market fit.
- **UX/UI Design:** Created user-centric interfaces in Figma, conducting usability validation to ensure an accessible and engaging user experience.

Frontend Developer & UX/UI INTERNSHIP

Sep 2022 - Nov 2023

BidWeb Security IT • Recife, On-site

- **Development & Cybersecurity:** Developed responsive open-source applications, implementing complex cybersecurity business logic for multiple clients.
- **System Design & React:** Designed integrated systems and collaborated on product strategy using React.js. Translated Figma prototypes into production-ready code.
- **Internal Tools:** Built an internal asset management system linked to core products, utilizing React.js, Zustand for state management, and JSON-Server, ensuring version control with Git.
- **DevOps & Cloud:** Implemented CI/CD pipelines to automate deployments on AWS (S3 & EC2), integrating cloud infrastructure with local projects.
- **Analytics & Documentation:** Collaborated on API integrations and designed data visualizations/dashboards in Kibana, in addition to creating technical datasheets and graphic materials.

HARD SKILLS & TOOLS

Frontend & UX/UI: ReactJS + Native, Next.js, Micro-frontends, Module Federation, JavaScript, HTML5/CSS3, TailwindCSS, Material UI, Bootstrap, Redux, Zustand, Context API, Framer Motion, Webpack & Babel, Jest (Testing), Responsive Design, Figma (Prototyping High/Low Fidelity), Web Design.

Backend, Architecture & Data: Node.js + EJS, Express.js, GraphQL, REST API, Software Architecture, Technical Debt, Performance Optimization & SEO, Technical Leadership, Mining Software Repositories, Programming Logic, OOP, SQL/NoSQL, MongoDB, Elephant SQL.

DevOps, Cloud & Tools: AWS, CI/CD, Pipelines, Gitflow, Trunk-based, Hosting (Vercel, Heroku), GitHub, Bitbucket, Agile Methodologies, Jira, Trello, Postman, VS Code.

LANGUAGES

English: Professional Working Proficiency (B2)

Dear Hiring Team,

I am writing to introduce myself as a Full Stack Software Engineer specialized in React.js, Node.js, and the AWS ecosystem, currently pursuing a Master's degree focused on Software Architecture.

Throughout my career, I have operated at the intersection of robust engineering and product strategy. I don't just write code; I build solutions designed to optimize complex workflows and drive business efficiency. My background includes:

- **Technical Expertise:** Experience in architecting scalable microservices, implementing Micro-frontends, and managing CI/CD pipelines to ensure high-performance delivery.
- **Product Vision:** A strong foundation in UX/UI and Product Discovery (Design Thinking), allowing me to bridge the gap between technical constraints and user needs effectively.
- **Academic Rigor:** My ongoing Master's research in architecture provides me with a disciplined approach to code quality, modularity, and system security.

I am particularly passionate about developing B2B solutions and productivity tools that reduce operational friction. I am looking for a challenging environment where I can apply this blend of architectural discipline and product intuition to deliver high-impact software.

Thank you for your time and consideration.

Best regards,

Samara Silvia Sabino
